#### **Description**

LSC Transportation Consultants, Inc. was retained by D&D Development Services to prepare a Traffic Impact Analysis. This analysis identified the impacts of the proposed development on the surrounding roadway system as well as parking and access requirements.

The site is located on the north side of Wildcat Reserve Parkway and east of South Broadway in Douglas County, Colorado. The proposed Living Way Fellowship Church development is planned for a building with a maximum of 28,000 square feet which includes a 100-child daycare facility.
