### ROUNDBABOUTS

LSC has been retained by local governments and private land owners to develop design concepts for roundabouts at major intersections in Colorado, Utah, California and Nevada. These efforts involved using state-of-the-art computer programs such as RODEL and aaSIDRA to assess the performance of various designs. LSC has worked very closely with engineering design firms to select the appropriate roundabout design. Some of our representative projects are:

#### Constructed

#### **88<sup>th</sup>/Rock Creek Parkway Roundabout**

Town of Superior - Bruce Williams  
303-499-3675  
Superior, Colorado
