Description

LSC was retained by East West Partners to assist in the design of the proposed traffic signal to be located at the Northstar Drive/SR 267 intersection in Placer County, California. Signal plans showing the traffic signal equipment layout, proposed signal phasing, advanced detector loop layout, conductor schedule, pole and equipment schedule and general notes were prepared according to CalTrans and Placer County requirements. In addition, LSC assisted with the review of equipment submittals and questions from the general contractor during the construction of the subject traffic signal.
